

THE ART OF DISPLAY

Meet **Frank**.

There's a reason why the Frank Showcase System stands in the most prestigious museums in the world, holding the most valuable and treasured objects in our collective history.

Frank cases are **conservation-grade, flexible, accessible** and uniquely **customizable**. With virtually no size limitations and a **patented** design that **ships and stores flat**, Frank is the perfect fit for institutions of all sizes. This German-engineered system is brought to you by Frank Europe and its international partners.

Uniquely engineered.

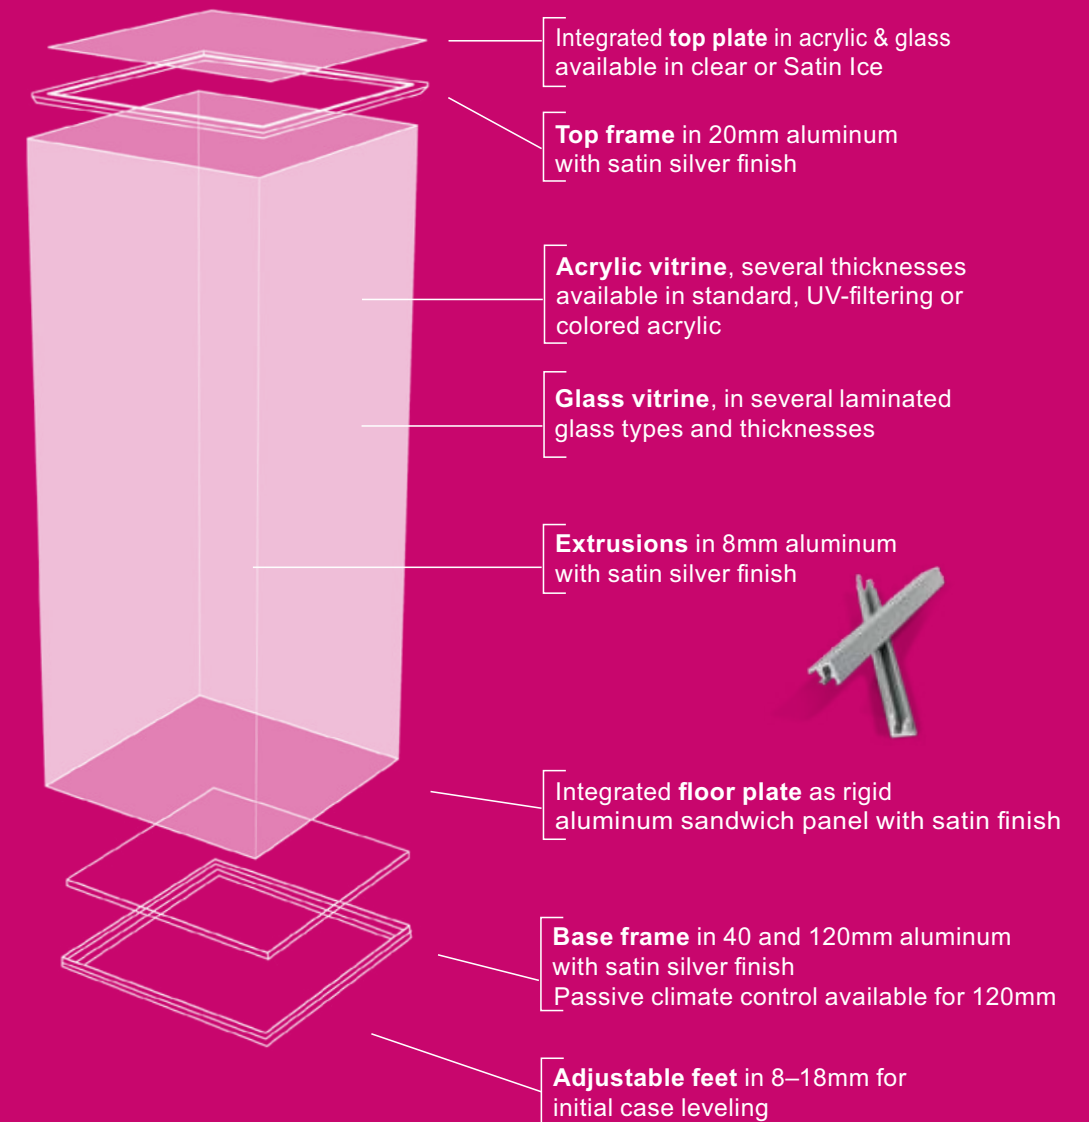

- ◆ **Patented system**, both for acrylic and glass
- ◆ **Demountable** cases ship and store flat
- ◆ **Precision-milled aluminum extrusions** hold acrylic and glass panels in place with no seams to fail
- ◆ **Acrylic panels** are light, strong, shatterproof, high-clarity and colorless
- ◆ **Glass panels** are timeless for permanent or temporary exhibitions
- ◆ Cases are **conservation-grade** and virtually airtight without glue or gaskets
- ◆ Inherently **secure** with no visible access points

An elegant solution that solves a host of problems.

Well-Designed Components

Uniquely flexible.

- ♦ **Minimalist aesthetic** with flush-mount profiles works with any exhibit or décor
- ♦ **Size is no obstacle** with this modular, demountable system
- ♦ Perfect for **traveling, temporary and permanent** exhibitions
- ♦ Available in a **vast array of case and vitrine styles**
- ♦ **Enhance or refresh any exhibit** with colored or custom-printed acrylic panels
- ♦ Seamless design makes it possible to use other materials (Polycarbonate, HPL etc.)

Design Frank into your next exhibition.

Any style, any size—from towering cases to vitrines for all bases.

Frank Vitrines

- Vitrines to fit any base
- Extended longevity with single panel replacement
- Integrate colored graphics
- Available with several Acrylic or glass types
 - Antireflective
 - Antistatic
 - 99% UV protection
 - Abrasion-resistant
- Laminated glass or tempered

Frank showcases are available in any base style, just ask!

Uniquely accessible.

- ♦ Remove a panel for **safe access** to large vitrines
- ♦ **Single panel replacement** - replace a damaged panel or create a fresh look
- ♦ Ingenious design puts large cases **within reach for any budget**
- ♦ Ships flat/disassembles, so it's **easy to maneuver** big cases through tight space
- ♦ If you're short on time before your exhibit, **opt to ship assembled**
- ♦ Standard case styles are **produced in weeks**, not months

Put Frank to work for you.

uniquely invisible

Frank is perfect for traveling, temporary or permanent exhibitions!

Shipped Flat

Frank cases and vitrines ship flat to save you money, make delivery easier and enable efficient storage leading up to your exhibition. Just remember to allow adequate time for assembly before the exhibit.

Professional Installation Available

When time is of the essence, ask us about professional installation services to take care of the assembly for you. We also recommend installation services for large and/or complex custom cases to ensure everything goes smoothly.

Option to Ship Assembled

If your exhibition date is looming, we may be able to ship your case assembled depending on size and complexity. Be sure to discuss your time frame, preferences and budget with your sales rep, and we'll help you choose the right option.

Reuse Your Shipping Materials

Any shipping option you choose accommodates reuse for storage or travel

1. *Packed safely in a custom-built crate with an integrated pallet.*

2. *Upgrade to a flight case for temporary or traveling exhibits.*

Uniquely customizable.

- ♦ Acrylic panels can be **custom-printed** with graphics and text to support your narrative
- ♦ Easily retrofit existing bases with **Frank vitrines**
- ♦ Or work with us to create **custom bases** for Frank vitrines
- ♦ From **pedestals** to **shelving** and **lighting**, the possibilities are endless
- ♦ Also great for **tradeshows** and **commercial applications**

If you can think it, Frank can do it.

Frank's custom possibilities are endless.

Lighting

Frank provides a unique **magnetic rail** system for lighting. All of the **LED-Spots** are available in **different colours** (°K) and are **dimnable**. A huge advantage is that all the spots can be **fixed freely**.

Shelving

The shelving system is **completely** adjustable. The structure is made of **aluminium**. The glass shelves, themselves, can be **laminated or tempered** but always in our standard **low-iron** quality.

Passive Climate Control

Frank has developed a **base frame** with drawer to allow **humidity control** in the case. **ProSorb** can be included according the volume of the inside space. All materials used by Frank Europe are completely **emission-free**.

Mobile Storage System

All our flight cases allow **optimal protection** and provide **easy access and storage** at all times. A flight case can contain **one or multiple showcases** within one single unit. All dimensions are always **custom made** on request.

Conventional Glass Display Cases.
